Abstract—This is the abstract. It should briefly summarize the problem, approach, and key results of your paper in 150–250 words.

Index Terms—keyword one, keyword two, keyword three

I. INTRODUCTION

This is the introduction section. IEEE conference papers typically follow a standard structure with Introduction, Related Work, Methodology, Experiments, and Conclusion.

II. RELATED WORK

Discuss prior work and how your contribution differs.

III. METHODOLOGY

Describe your approach in detail.

IV. EXPERIMENTS

Present experimental setup and results.

V. CONCLUSION

Summarize contributions and discuss future directions.
